PROFESSIONAL SUMMARY

Artificial Intelligence and Data Science student with hands-on experience in Java, Python, SQL, web development, Pega Platform, and computer vision. Completed the Pega National & International Program with practical experience building workflow-driven applications. Strong foundation in Data Structures and Algorithms, problem solving, and software development, seeking entry-level opportunities in software or Java development.

TECHNICAL SKILLS

Programming: Java, Python, C, C++ | **Web:** HTML, CSS, JavaScript, React

Backend & Database: Node.js, SQL, MySQL | **AI/Computer Vision:** OpenCV, MediaPipe

Platforms & Tools: Pega Platform, Git, GitHub, VS Code | **Core:** DSA, DBMS

EDUCATION

Bannari Amman Institute of Technology — B.Tech, Artificial Intelligence and Data Science | 2024–Present | CGPA: 7.55

EXPERIENCE

Pega – National & International Program | Intern | Completed

• Completed hands-on training and application development using Pega Platform, including case management, workflow automation, application configuration, and business process implementation.

• Developed practical Pega applications as part of the program, applying workflow and case-based development concepts.

PROJECTS

NIP Movie Ticket Booking | Pega Platform

• Developed a Pega-based movie ticket booking application to manage the end-to-end booking workflow, from request submission and show selection to payment, ticket generation, and confirmation.

• Implemented show availability checking, alternate show suggestions, booking cost calculation, SLA management, and show-type based routing.

• GitHub: github.com/k-roshini-2006/NIP-MovieTicket-Roshini-K

ShopEase – E-Commerce Website | React, Node.js, MySQL

• Developed a full-stack e-commerce website with product browsing, cart, checkout, authentication, and admin features.

• Built the frontend using React and integrated Node.js with MySQL for backend functionality.

• GitHub: github.com/k-roshini-2006/E-Commerce-Website.git

AI Hand Gesture Game Controller | Python, OpenCV, MediaPipe

• Developed a real-time hand gesture-based game controller using computer vision and hand tracking.

• Implemented gesture recognition to control game actions through PyAutoGUI.

• GitHub: github.com/k-roshini-2006/AI-Hand-Gesture-Game-Controller

UPlus – Hotels, Travel Management & Customer Support | Pega

• Developed a Pega-based hospitality application for customer support and hotel partner onboarding.

• Streamlined travel-related service requests and management processes using Pega workflows.

• GitHub: github.com/k-roshini-2006/UPlus-Hotels-TMCS

ACHIEVEMENTS

• Solved 280+ coding problems on LeetCode, demonstrating problem-solving and Data Structures and Algorithms skills.

• Qualified for NextGen Round 2.

• Participated in Tamil Nadu Skill Competition (Level 1) and Unstop national-level events.

CERTIFICATIONS & TRAINING

Pega National Internship Program | Fix Forward | Steamified | Oracle | Cisco | Infosys Springboard | Salesforce

ADDITIONAL INFORMATION

Languages: English, Tamil | **Soft Skills:** Problem Solving, Teamwork, Communication, Critical Thinking, Adaptability
